

## **PROJECT**

Bulkhead Construction Works

## **CLIENT**

CBH

## **LOCATION**

Merredin, WA

## **START DATE:**

August 2016

## **END DATE:**

October 2016

The initial contract was to build one grain bulkhead, this turned into constructing 4 bulkheads. CHC were able to accommodate this request with strong resource management and a determination to complete the works for CBH.

## **Key activities:**

- Topsoil Removal
- Cut to fill earthworks
- Gravel placement
- Cement stabilisation
- Bitumen seal
- Asphalt
- Culvert installation
- Drainage works
- Trimming works
- Erection of bulkhead frames

## **Summary**

CHC maintained a good understanding of the job scope with strong project management to maintain a strict deadline date set by the client.

The job was completed two weeks ahead of the scheduled finish date.

A good working relationship was obtained between CHC and the client.
